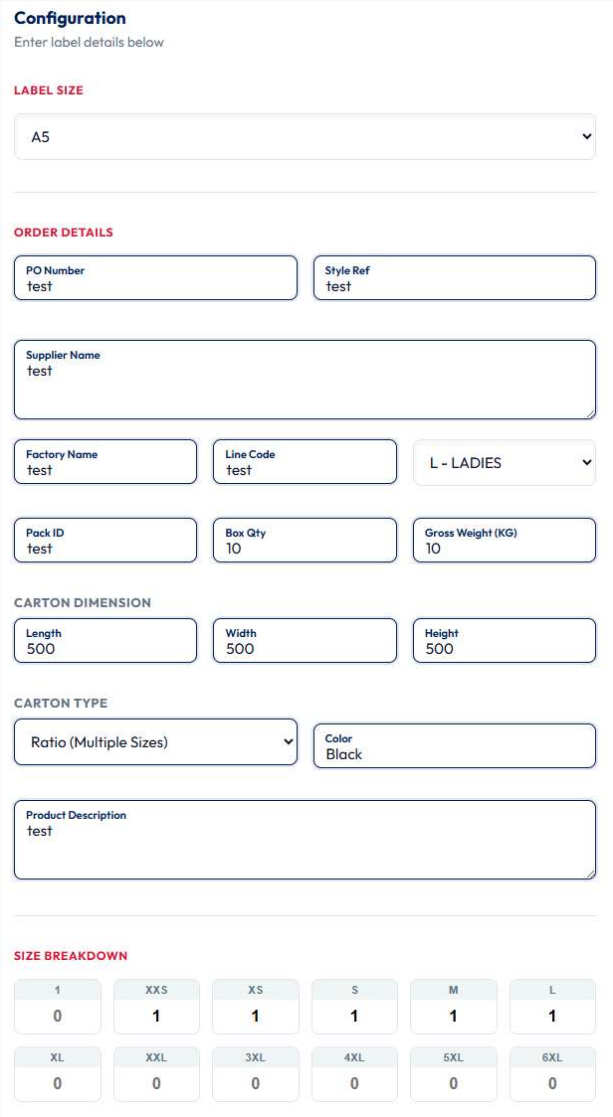
3 Filling in the Label (Continued)

2. Application Inputs

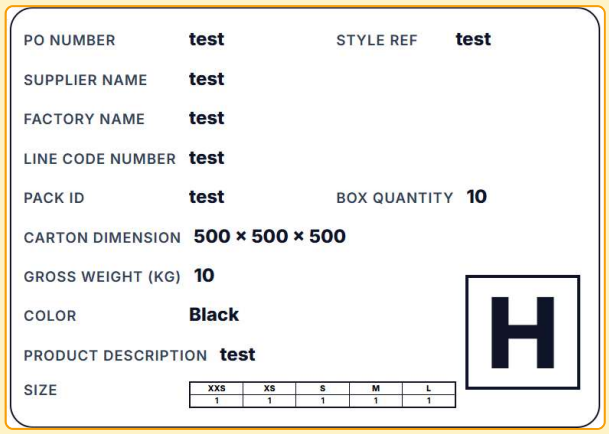


- **Carton Dimensions:** Split into three inputs (Length, Width, Height) to capture accurate 3D values. **These must be inputted in MM.** They are combined into a single string (L x W x H) on the label.
- **Gross Weight (KG):** Enter the total carton weight here. This will be formatted next to the dimensions on the label output.

4 Special Classifications

Homeware Division

Select **"H - Homeware"** in the Division dropdown to display the required corner indicator.



5 Final Steps

1 Review Preview

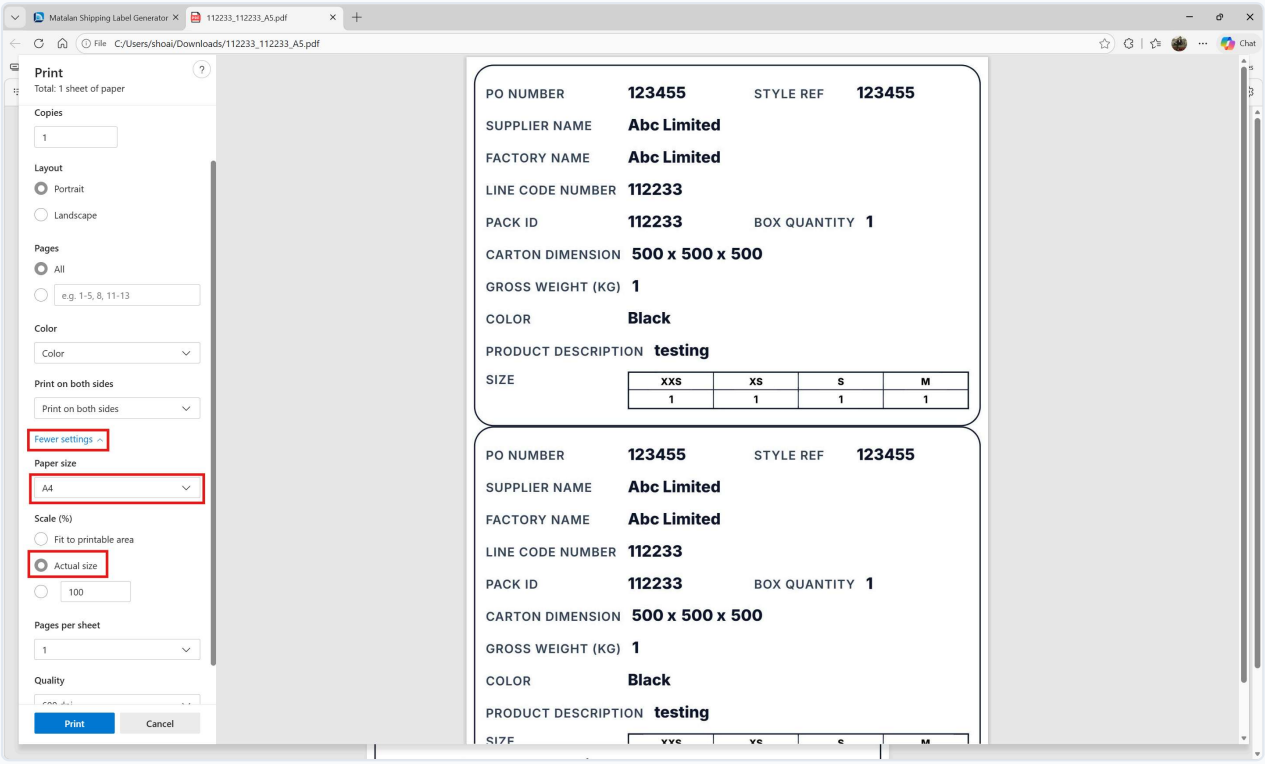
Check all details on the live preview before exporting.

2 Export PDF

Click the **Export PDF** button. The file will be named automatically.

3 Print

Print on **A4** paper with scale set to **"Actual Size"** or **100%**.



* Note: The instruction image is from Microsoft Edge. It is highly recommended to open the exported PDF in Microsoft Edge to follow these exact print settings.

6 Printing Specs

- **Stock:** Pressure sensitive label paper
- **Weight:** 60 GSM or higher
- **Finish:** Matte or low gloss
- **Opacity:** 75% minimum

7 Troubleshooting

- **Text cut off:** Add a space between words to allow wrapping.
- **Corner box missing:** "H" box only for Homeware.
- **Wrong label size:** Verify carton height.
- **Preview issues:** Exported PDF is correct even if mobile preview is off.
- **Size too small:** Ensure "Actual Size" print scale.
- **Values not showing properly:** Select the label size then re-enter the values.
- **Alignment issue:** This happens sometimes on mobile, for consistency, use a computer.
